

ETS Students Participate in College Tour Trip

Forty five rising seniors from Polk, Scott, and Montgomery Counties attended the three day college tour June 14-16. All students were participants in the Educational Talent Search program through Rich Mountain Community College. The trip on a chartered bus through Arkansas included seven university tours and a tour of the Clinton Library. Students also engaged in team building exercises and became acquainted with participants from eight area school districts. The event was chaperoned by TRIO Secondary Programs Director Brenda Miner, Coordinator Julie Ulmer, and ETS Representatives Brandon Burk and Erika Smith. The Talent Search program will be accepting new participants who meet required guidelines this fall. Interested parents should direct inquiries to the ETS department at RMCC. Educational Talent Search is grant funded through the Department of Education.
