

RMCC Chong Chang Nominated to ETS Hall of Fame

Chong Chang is RMCC's Educational Talent Search (ETS) Hall of Fame nominee and was recognized at the state level at TRiO Day. Chong Chang is a Waldron High School Senior and the sixth of ten children in her family. She plans to study medical sciences in college, and when she graduates will be the first in her family to complete a college degree.

The ETS program at Rich Mountain Community College is funded in total (100%) by federal grant funding from the U.S. Department of Education, with an annual budget of \$306,730. ETS is designed to help encourage students in grades 6-12 to complete high school and enter college. ETS representatives working out of RMCC achieve these goals through services to students in Montgomery, Polk, and Scott Counties.
